

1. Open your browser and type https://app.ivymobi.com/project/advanio_en on the blank page
2. Click <ENTER> on your keyboard to get into the page for APP downloading.
3. Select the “Advanio (for Android)” app and click <Install> to download and install the APP from this page, then you will see “icase.ivymobi.com would like to install ‘advanio””, click <install> to continue.

4. Downloaded. Open your file management and find Advanio APP, which is the latest one in the download records.
5. Click this installing APP package.

Click <Next>

The screenshot shows the 'Advanio' application installation screen. At the top, the app name 'Advanio' is displayed next to its logo. Below the name, a question asks if the user wants to install the application, noting that it will get access to certain permissions. The permissions are grouped into two sections: 'PRIVACY' and 'DEVICE ACCESS'. Under 'PRIVACY', there are four items: 'read phone status and identity' (with a phone icon), 'record audio' (with a microphone icon), 'approximate location (network-based)' and 'precise location (GPS and network-based)' (with a location pin icon), and 'modify or delete the contents of your SD card' (with a USB icon). Under 'DEVICE ACCESS', there are three items: 'full network access', 'view network connections', and 'view Wi-Fi connections' (all with a Wi-Fi icon). At the bottom, there are two buttons: 'Cancel' and 'Next'. The 'Next' button is circled in red.

Advanio
