

ION

CONTEC is dedicated to advancing growth in FA-IT & e-IT

C to the power of n

The letter 'C' represents the products, business and services offered by CONTEC. It appears in uppercase to indicate the importance of these things as well as CONTEC's focus on 'Clienter Merit'.

'n' represents the diverse number of products, business and services offered and appears in cursive as a visual representation of the speed, efficiency and effectiveness of CONTEC's business.

The following is a sample of CONTEC's 'C to the nth power' policy

- | | |
|------------------------------|---|
| 1) Customer Merit | In order to provide customer satisfaction, CONTEC cooperates with its customers to create products which specifically meet your needs. |
| 2) Computers and Controllers | CONTEC offers high quality products and services in both Communication and Component Devices. |
| 3) Contents | CONTEC offers a solid Contents business. |
| 4) Citizen Automation | CONTEC aims to provide the best quality automation products for the citizens. |
| 5) Core Competence | Our policy aims to continually clarify and strengthen CONTEC's strong points and existing competencies. |
| 6) CONTEC Spirit | CONTEC aims to continue challenging itself in order to bring the best, most effective products with the highest quality to the customer. This is expressed in the company motto, Development and Exploration. |

IT & IT - Industrial Technology and Information Technology

The former 'IT' represents further expansion of CONTEC's existing strengths in FA (Full Automation) Industrial Technology. The latter 'IT' represents an increase in focus and growth of CONTEC's Information Technology business.

CONTEC aims to be a global company and is committed to expanding its growth within the Industrial Technology and Information Technology sectors.
