"Solution-ePC" for Industrial Use

Service & Products

"stable supply" are the two essential industrial computers on a "Built to Order" (BTO) basis

CONTEC now offers a variety of newly developed mother boards along with our lineup of single board computers.

We customize on the basis of needed chassis dimensions, system 'speed' (CPU and memory), storage options (harddrive, silicon disk drive, compact flash, RAID system, etc.) and operating system.

We provide a "Solution-ePC" to specifically meet your demands.
